

Kit: (\$50 fee payable to me at class):

I will supply the chemicals needed as part of the kit fee which includes:

1 copper form pre-prepared for drawing (this is most of the expense)

Patina

Fixative

Wax

Solder

Rivets

Spacer tubes

Pin findings

Brushes, containers, etc.

I will have some pencils for students to share or they can bring their own.

Tool and supply list for students:

Optivisor or other magnification

Nylon wedge hammer

Texture hammer (optional)

Small ball peen hammer or hammer hand piece

Punch (**not** an automatic punch), a large nail will do

8 inch #2 Swiss file, either barrette or half round

Sanding stick (I use 4way nail files)

Prismacolor Premier pencils (there will be some for the class to share and some to purchase)

Fine point sharpie marker

X-acto knife

Metal shears (optional)

Saw and 4/0 blades

tweezers

super flush cutter

22 gauge copper (about 6x6")

22 gauge silver (optional)

Sketch pad and pencil

Templates (optional)

Steel bench block or delrin block (I will have The Little Black Block for purchase)
